

# Excessive Underarm Sweat

RESEARCH STUDY 

**Do you suffer from excessive underarm sweat? Does the discomfort of sweat running down your sides interfere with your daily activities?**

**Academic Dermatology Associates in Albuquerque** is conducting a research study testing a research medication for excessive sweating (hyperhidrosis).

Qualifications include:

- Adults or children at least 9 years old
- Must produce a substantial amount of underarm sweat, typically soaking through shirts even while doing non-physical activities

Qualified participants will receive at no cost:

- Study-related care
- Study medication

Compensation may be provided for time.  
Health insurance is not needed to participate.
